

# STUDIO 698

Home Audio Loudspeaker System

## High definition imaging for high fidelity sound.

For those searching for a home audio speaker system that goes above and beyond what they've ever heard, seek no further: The new JBL Studio 698 speaker system is everything your inner audiophile could hope for. Enjoy the top-ranked sound of its PolyPlas cones; marvel at the concert-grade accuracy and power of its acoustics speaker drivers; and get electrified by its HD imaging waveguide, complete with high-frequency compression driver. It features a modern new clean look that's equally stylish and easy to set up. After JBL Studio 698, home listening will never sound – or feel – the same.

## Features

- ▶ Top-graded PolyPlas cones
- ▶ High-quality sounding compression drivers
- ▶ New, appealing form factor
- ▶ High-Definition Imaging Waveguide with High-Frequency Compression Driver

# STUDIO 698

Home Audio Loudspeaker System

## Features and Benefits

### Top-graded PolyPlas cones

For those who prefer their home stereo and home theater to sound precisely like it would sound at a live concert or movie theater.

### High-quality sounding compression drivers

Compression drivers that add best-in-class clarity and detail to your sound experience.

### New, appealing form factor

Our speaker system is pleasing to the eyes, making it a perfect match for your home décor.

### High-Definition Imaging Waveguide with High-Frequency Compression Driver

High-quality home audio helps deliver a live-concert sound directly to your home.
